

FLEXI FOCUS

TAKE A BREAK FROM THE NORM

CRAFTSMANSHIP AND ENGINEERING ARE AT OUR HEART. WE MAKE THINGS THAT WORK, AND MANUFACTURE INTERESTING AND ENGAGING SOLUTIONS FOR EVERY BREAKOUT SPACE.

We are design led, blending function with form in a creative and stylish way. Our processes ensure consistency, and our innovative use of the latest CNC technology, ensures quality and reliability. We have been doing this for a long time, with an established team of craftsmen. We know how to design and manufacture, quality soft seating products. Value for money products that bring spaces to life. We lead the way in understanding the breakout and collaborative working space, and work with our dealer partners to bring spaces to life.

We are 2020 Furniture, we are break from the norm.

FABRICS COVERED BY FABRIC MANUFACTURERS' WARRANTY, USUALLY 5 YEARS, DEPENDANT ON FABRIC CHOICE.

EXPECTED LIFE CYCLE OF 15 YEARS.

CARE INSTRUCTIONS

General Maintenance:

Vacuum regularly to remove dust and grit. Clean spills and stains quickly to prevent them setting in If being used in a spill/stain-prone area specify a stain repellent finish.

For appearance retention we recommend regular professional cleaning to give your furniture a longer life.

Natural Fabrics:

In addition to regular vacuuming, wool and other natural fibres can usually be cleaned using branded upholstery

For a deeper clean, it's best that wool be dry cleaned, as over wetting cause shrinkage and change in appearance. Never apply bleach, ammonia, alkali or strong acids to wool upholstery.

Synthetic Fabrics:

Vacuuming is the best regular maintenance, followed by speed of action to remove spills and stains rapidly as soon as they occur.

Most synthetic fabrics can be wiped down with a water soaked damp cloth without fear of damaging the fibre or removing the colour.

Leather:

Leather should be regularly dusted with a soft cloth and vaccumed with soft brush extension. Most types of Anilines can also be treated with specialist products to help preserve, coloue, finish etc.. As leather is natural material, discrepancies in surface texture and 'puddling' in seat areas is to be expected.
