CLIMB

Climb is a brilliantly stylish product built for collaborating and enjoying the creative linkable shapes or floor plans created by 2020 Furniture Design. Being able to use the natural Ply Birch grain or many coloured laminates shows how flexible this product can be, showing the beautiful cross layers to the core. The Climb range uses Plywood which is a natural product made from renewable resources

making it one of the most environmentally friendly decorative materials which also has an amazing strength. We also have an option on fabrics that are sustainable textiles for upholstery such as Hemp which is made from Wool and Hemp and Nettle Aztec made from Virgin Wool and harvested nettles. The range just makes for a perfect collaborating area teasing you to make the Climb.

CARE INSTRUCTIONS

General Maintenance:

Vacuum regularly to remove dust and grit.
Clean spills and stains quickly to prevent them setting in
If being used in a spill/stain-prone area specify a stain repellent finish.

For appearance retention we recommend regular professional cleaning to give your furniture a longer life.

Natural Fabrics:

In addition to regular vacuuming, wool and other natural fibres can usually be cleaned using branded upholstery shampoo.
For a deeper clean, it's best that wool be dry cleaned, as over wetting cause shrinkage and change in appearance.
Never apply bleach, ammonia, alkali or strong acids to wool upholstery.

Synthetic Fabrics:

Vacuuming is the best regular maintenance, followed by speed of action to remove spills and stains rapidly as soon as they occur.
Most synthetic fabrics can be wiped down with a water soaked damp cloth without fear of damaging the fibre or removing the colour.
Stubborn stains can be removed with upholstery shampoo.

Leather:

Leather should be regularly dusted with a soft cloth and vacuumed with soft brush extension.
Most types of Anilines can also be treated with specialist products to help preserve, colour, finish etc..
As leather is natural material, discrepancies in surface texture and 'puddling' in seat areas is to be expected.
