

THRIVE
PLANTERS

TAKE A BREAK FROM THE NORM

CRAFTSMANSHIP AND ENGINEERING ARE AT OUR HEART. WE MAKE THINGS THAT WORK, AND MANUFACTURE INTERESTING AND ENGAGING SOLUTIONS FOR EVERY BREAKOUT SPACE.

We are design led, blending function with form in a creative and stylish way. Our processes ensure consistency, and our innovative use of the latest CNC technology, ensures quality and reliability. We have been doing this for a long time, with an established team of craftsmen. We know how to design and manufacture, quality soft seating products. Value for money products that bring spaces to life. We lead the way in understanding the breakout and collaborative working space, and work with our dealer partners to bring spaces to life.

We are 2020 Furniture, we are a break from the norm.

THRIVE PLANTERS

Biophilic design has been proven to have profound effects on our well-being. Incorporating greenery into the workplace reduces stress, boosts creativity, and enhances focus, creating a healthier and more productive environment. With ThrivePlanters, you can easily bring this transformative power of nature into your office spaces.

ThrivePlanters feature a sleek metal tube frame available in modern black or white finishes, perfectly paired with a wide range of MFC options to complement your existing furniture. Designed to seamlessly integrate into workspaces, they come in standard heights and widths to match our furniture ranges. For added versatility, choose between castors for mobility or glides for stability.

Whether positioned behind sofas to create a relaxing, nature-inspired setting or used as stylish dividers to separate office sections, ThrivePlanters help foster a sense of calm and connection to the natural world. These planters are more than just functional—they're a statement of style and wellness.

Expected Life Cycle Of 15 Years.

CARE INSTRUCTIONS

General Maintenance:

Vacuum regularly to remove dust and grit.

Clean spills and stains quickly to prevent them setting in.

If being used in a spill / stain-prone area specify a stain repellent finish or Scotchgard treatment (additional charges may apply)

For appearance retention we recommend regular professional cleaning to give your furniture a longer life.

Natural Fabrics:

In addition to regular vacuuming, wool and other natural fibres can usually be cleaned using branded upholstery shampoo.

For a deeper clean, it's best that wool be dry cleaned, as over wetting can cause shrinkage and change in appearance.

Never apply bleach, ammonia, alkali or strong acids to wool upholstery.

Synthetic Fabrics:

Vacuuming is the best regular maintenance, followed by speed of action to remove spills and stains rapidly as soon as they occur.

Most synthetic fabrics can be wiped down with a water-soaked damp cloth without fear of damaging the fibre or removing the colour. Stubborn stains can be removed with upholstery shampoo.

Care of MFC / Laminates

You should only need to use a clean, damp, non-abrasive cotton cloth, and a mild liquid detergent or household cleaner. Rinse when clean with water. Do not use too much water, especially near edges, as water can cause them to swell. Dry the surface with a soft, clean, non-abrasive cotton cloth.
