## THE VERTA SOFA COLLECTION

Sleek yet inviting, the Verta Sofa Collection is a statement in modern craftsmanship. Defined by its elegant pitched arms and sculpted back, every line is a study in balance—structured yet relaxed, bold yet effortlessly refined. Inspired by the word “vertical,” Verta reflects clean architectural lines, giving it a modern yet timeless presence.

# VERTA

Designed and manufactured by 2020 Furniture Design

Designed for both professional and personal spaces, Verta brings the comfort of home into the modern breakout area. As workspaces continue to evolve, there is a greater need for office environments that prioritize well-being and relaxation. Breakout spaces have become essential for collaboration, creativity, and unwinding—offering employees a comfortable setting to recharge, connect, or work in a more casual setting. The Verta Sofa Collection bridges this gap, delivering the warmth and ease of a residential sofa with the durability and practicality required for high-use office spaces.

The loose-looking fixed cushions provide a relaxed yet structured feel, while twin-needle stitching enhances the upholstery's precise craftsmanship. To add a unique design touch, the stitching thread can be customized in a contrasting color, creating subtle detailing that elevates the overall aesthetic. Whether you opt for a tone-on-tone look or a bolder contrast, this feature allows for further personalization to complement any interior style.

Anchored by a timber underframe that adds warmth and stability, Verta embodies thoughtful design and quality workmanship. Available in one, two, and three-seater options, this collection offers a sophisticated yet practical solution for contemporary office spaces, seamlessly blending comfort, style, and functionality.
